

Task 1: Create a Cronjob to Log Date and Time Daily at 8:00 AM

Open the crontab editor:

- `crontab -e`

Add the following line:

- `0 8 * * * date >> ~/mylog.txt`

Save and exit.

Verify:

- `crontab -l`

Task 2: Backup the music Folder Every Sunday at 11:30 PM

Create the destination folder:

- `mkdir -p ~/Documents/backup_music`

Open crontab:

- `crontab -e`

Add:

- `30 23 * * 0 cp -r ~/Downloads/music/* ~/Documents/backup_music/`

Verify:

- `crontab -l`

Task 3: Delete .tmp Files Every Hour and Log Deleted Files

Open crontab:

- `crontab -e`

Add:

- `0 * * * * find ~/Desktop -type f -name "*.tmp" -print -delete >> ~/deleted_tmp.log`

Verify:

- `crontab -l`

Task 4: Disable and Re-enable a Cronjob

Suppose the cronjob is:

- `0 */2 * * * echo "Time for a break!" >> ~/break.txt`

Disable it temporarily

Comment it with #:

- `#0 */2 * * * echo "Time for a break!" >> ~/break.txt`

Re-enable it after 5 minutes

Remove the #:

- `0 */2 * * * echo "Time for a break!" >> ~/break.txt`

Verify:

- `crontab -l`

Task 5: Weekday Reminder at 7:45 PM

Open crontab:

- `crontab -e`

Add:

- `45 19 * * 1-5 echo "Dinner Reminder" >> ~/dinner.txt`

Verify:

- `crontab -l`
