

Task 1: Create Users and Group

Create two users

- `useradd musicfan`
- `passwd musicfan`

Set password.

- `useradd moviebuff`
- `passwd moviebuff`

Create group

- `groupadd playlist`

Add both users to the group

- `usermod -aG playlist musicfan`
- `usermod -aG playlist moviebuff`

Verify

- `id musicfan`
- `id moviebuff`

Task 2: Create Shared Directory

Go to home directory

- `cd /home`

Create folder

- `mkdir spotify_shared`

Change group ownership

- `chown root:playlist spotify_shared`

Give permissions

- `chmod 770 spotify_shared`

Check

- `ls -ld spotify_shared`

Task 3: Create File

Create file

- `touch /home/spotify_shared/top_songs.txt`

Add some text

- `echo "Shape of You" > /home/spotify_shared/top_songs.txt`

Change ownership

- `chown musicfan:playlist /home/spotify_shared/top_songs.txt`

Give permissions

- `chmod 640 /home/spotify_shared/top_songs.txt`

Check

- `ls -l /home/spotify_shared`

Task 4: Test as moviebuff

Switch user

- `su - moviebuff`

Try to read file

- `cat /home/spotify_shared/top_songs.txt`
